THE BULLDOCH HERALD

DEDICATED TO THE PROGRESS OF STATESBORO AND BULLDOCH COUNTY

VOLUME ONE

STATESBORO, GEORGIA, FRIDAY, APRIL 2, 1937

BUILDING PROJECTS UNDER WAY ESTIMATED \$150,000

BABY CONTEST PLANS ABOUT COMPLETE

NATIONAL BABY WEEK IN MAY MARKS FINALS

The concentration point for every adoring mother should be the Baby Contest to be held at the Georgia Theatre throughout the month of May. Popular and progressive business firms will join with the Georgia Theatre in this contest to select the most outstanding and beautiful babies in Statesboro.

This contest gains added significance when we recall that National Baby Week is observed during the month of May. Any effort to select the most beautiful babies should arouse keen interest, for we have only to take a stroll were children are at play or to peer into perambulators to know that there are many promising young cherubs who would offer keen competition as entries in a baby contest.

Mr. Will C. Macon has announced that outstanding merchants will give in return for each \$25 spent with them 25 baby votes. The holder of these votes is then entitled to place them on his or her "object of affection." The baby receiving the most votes thus secured will be awarded a handsome silver loving cup—a gift of the Georgia Theatre, and a prize will be a crisp new ten dollar bill, third and fourth prizes will be Shirley Temple dolls valued at five dollars each.

The most interesting fact about the contest is that pictures will be made of each entrant and shown on the screen, thus affording our youngsters the unusual opportunity of breaking into the movies at a very early age. With such attractive inducements offered it is believed that half a hundred or more of our popular and beautiful babies from infants to five year olds will be entered in this contest.

Oscar M. Israel, of Lumberton, N. C., is making arrangements to move to Statesboro at a very early date. He will be joined by Mrs. Israel and his children, Renette and William Everett, at a later date.

He comes here with considerable experience in merchandising, having been in business since 1922 in Lumberton, N. C. Except for a short period, when he was in Philadelphia, in millinery manufacturing, he was continuously in business in Lumberton.

A few days ago a request was mailed to the payees of these checks asking them to come in and call for their checks so that the records of the Bulloch Mortgage Loan Company to the depositors of the closed Bank of Statesboro.

Mr. Israel left Statesboro last week for New York, where he will spend several days buying merchandise for his new store.

LOCAL CIGARETTE SALES UP FOR DAY

The local cigarette dealers found themselves swamped with orders for cartoon lots of cigarettes on Wednesday of this week prior to the announcement that the price of the popular brands would advance from 18c to 18c per package.

It has been pointed out that dealers have been making only a little more than a cent a package and since the tax had been raised a cent it had some increase in the retail price must be made.

The new tax law passed by the Legislature at its recent session imposes a three-cent tax on packages of twenty cigarettes, two cents on packages of ten cigarettes and seven and a half cents on containers of fifty cigarettes.

The old tax was one and one-half cents a package and was largely absorbed by the retailers.

HIGH SCHOOL NEEDS STUDIED

At a recent meeting of the Rotary Club, a member of the Senior Class of the High School appeared as guest speaker. The Rotary Club invited this senior to speak with the idea of learning the High School's need for a gym, a home economics instructor and an industrial art course.

For some time the Rotarians have manifested a very keen interest in the needs of our high school and under their leadership it is being determined what can be done and how to go about fulfilling these needs. They have been old and their investigations have proven that there is a great need for the equipment and courses for which the high school is asking.

The need of a gym is keenly felt by our students when they go about the county and state to participate in athletic competition with schools which boast of completely equipped gyms. It has been suggested that the lack of a properly equipped gym reduces the interest that the normal boy and girl would have in his and her school activities, scholastically as well as athletics.

The good that could be derived from courses which teach these boys and girls how to use their hands helping make their homes better in obvious. There is no denying the good that home economics can do for the girls studying it. There is no denying the good that a boy derives from the study of industrial art.

The Rotary Club is to be commended for the interest it is showing and for the steps it has taken and is taking to bring these needs before the proper authorities. It is believed that they will succeed in securing these things that the school needs. The students of the school are enthusiastic in their cooperation with the Rotarians and have faith in the eventual realization of their wants and needs.

We understand that a committee of Savannah Avenue Neighbors has called a special meeting to pass on the eligibility of Sam Northcutt as a neighbor. Sam's new home is in the process of completion and he has neglected to apply to the proper persons for admission into the neighborhood. The chairman, however, has issued a statement to the effect that if Sam will comply with certain requirements that his proposed application will be given consideration. We understand that Sam will meet the requirements.

The Bibb County chain gang has been on a 44-hour week. Until March 20 they had always worked from sunrise to sunset. It occurs to us that perhaps we will next hear that they have been on a "sit-down" strike.

FOR THE GOOD OF YOUR SOUL

If you like a sport that will test your mettle without breaking your back try bowling. If you have never bowled, go down to the Army on Thursday nights which is Ladies' Night, take your better half, or at any rate, the other half, and try it. Roll one of the balls and hear the soul-satisfying crashing of "timber" as the pins fly. You will find that it gets you, then the smart thing to do is to get Mr. Cromartie to give you a pointer or two and you are off. When you go home you will sleep like a top. Verily, bowling is a swell game. We like it because it is the civilized man's last chance to raise an awful racket without apologizing to a soul.

Charles Darwin was a young man studying for the clergy when he got a chance to go on a 5 year scientific expedition, as a clerk. There were no women along with whom he might waste his time so Darwin adopted natural history as a hobby. On this trip he made the observation for his theory on the origin of the species.

Like most artists, Robert Fulton was a super-energetic lazy man. At fourteen, he built a paddle wheel boat in order to avoid poling while fishing. When away from his easel, he didn't deem it necessary to account for his spare time to any one lady, and consequently became an amateur inventor of torpedoes and submarines; then perhaps seeking for the torpedoes to sink, Fulton developed the steamboat.

A charming Southern woman spurred young Eli Whitney on to the invention of the cotton gin, it must be admitted. Whitney was a scholar who liked traveling. Whitney met a nice lady and again it was a case of too much crocheting. He made a trick embroidery device for her. The Southern lady said he could make anything, and it was suggested that he try his hand at a cotton ginning machine. He did.

Think on this:
"No matter what doctrines are preached from the pulpit, what creeds are recited by the congregation, or what pronouncements are made by general Conferences, Assemblies, or Synods. The acid test of the Church's usefulness is its ability to produce fruits of the Holy Spirit among its members."

Do you ever wonder what became of the meat weighing scales that used to be out at the old packing plant? Gilbert Cone is using them in his business of weighing your meat at the Statesboro Provision Company.

With Summer coming on, we find ourselves interested in an appliance designed to condition the air at the arm pits to eliminate perspiration. Two bulb shaped pumps, one under each arm pit, provided, with flap valves through which, antiseptics, and other chemical conditioners can be inserted. When arm pressure squeezes the bulbs, air, conditioned by the chemicals in the bulb is forced out through valves, cooling the arm pits.

How would you boys like to work for Joe Penner? You know, the radio duck salesman. He always hires four kids to sit in the front row at his broadcasts. He judges how funny his jokes are by how much these kids laugh. Sure. He pays them five dollars each.

CLIPONREKA GULLINGS

Young Roaming Reporter hasn't done much roaming this week on account of a shortage of gas but heard that one of our most prominent citizens disappeared from home this week and hasn't been located. It seems some practical joker wrote him a note, sent it in a plain envelope, saying: "Look out! All has been discovered." Said citizens wife reports that he never came back to the house after going for his mail. She's offering a reward, but it's that kind of a husband, we are wondering why.

Grandpap Ethridge, now in his eighth year of 80, is enjoying (?) a first class of naps this week. Says he's expecting to cut cutting his baby teeth by May.

Doy Atkins and his better nineteenth, who was Georgia Mae Dixon before she took the fatal entailed a whole lot of Atkins and Dixons with a barbecue on Sunday. Everyone reports a glorious time and Clyde Dixon says if he had eaten any more he would have needed an undertaker.

Mrs. Cliff Thomas has returned from a stay at Port with her family, the Freeman-Carter's. About sixty children of the City Sunday School enjoyed an Easter Egg hunt Sunday afternoon. Blanche and Evelyn Dixon assisted by the McDougald boys dyed the eggs. Saturday afternoon and after Sunday School the older folks hid them. Quite a scramble ensued when the hunting began.

Mr. and Mrs. Hubert Padgett and children, Gordon Allen and Barbara, together with Mrs. H. J. Martin and her children, H. J. and Ruth, of Savannah, spent Sunday with their parents, Mr. and Mrs. J. B. Gibson. Miss Mildred Braddy, of Millen, who was visiting the Padgetts, accompanied them.

Baby Billy Deal, son of Mrs. Lillie Mae Deal, and grandson of Mrs. O. H. Hendrix, is in the Statesboro hospital suffering from a serious trouble that the attending physician hasn't fully diagnosed. The nurses report some improvement today, however.

The most amusing sight we have seen this week was Lonnie Zetrower, wrapped up head and shoulders in his heaviest overcoat, shedding tears because he didn't cotton up in the prettiest sight we have seen are the dog-wood trees back of the Jess Fletcher's.

The "bravest sight we have seen is the little freezing sprouts of corn trying to look brave after Saturday night's freeze—the most pathetic sight was the girl who had spent the family bank-roll on Easter finery and woke up Sunday to find she couldn't wear any of it. She made up a roaring fire and stayed home.

All of which reminds you, Roaming Reporter, to ask you for a little help. We are not going to film Gone With the Wind, nor do a Lum & Abner broadcast, but we are on a hunt for:

1. The oldest man or woman (white or black).
2. The oldest house or building.
3. The oldest mule, horse, cow, cat or dog.
These are pertaining to Bulloch County. We want you to write us, you care of the Herald, what you know of that has some ancient history, where we can find it, etc. Out of all may come something interesting to many of our readers and if we can find some really old person, we promise to make it very interesting to humor her. Please address your letters care of the Herald to your

Although Easter Sunday was rather chilly, those new frocks had to be worn. Suits predominated topped by gay sailors with matching posies. There were hats with Spring Time brims, platter hats worn by matron and maid alike, and the popular felt rolled berets.

Several interesting and instructive talks were made. One of the most interesting was given by "Red" Edgerton, of the Western Newspaper Union. Mr. Edgerton pointed out in his talk that a school page in the editor's weekly publication would cause a great deal of public interest in his paper. Other talks were made by Mrs. O. H. The Students were very pleased with the opportunity that the Rotary Club has given them and appreciate very much the interest that the Rotarians are showing in them and their needs.
